(407) 864-5797 • *Sky.Jackson@icloud.com* • **Orlando, FL 32828**
**LinkedIn:** */Skylar-D-Jackson* • **GitHub:** */Doctor-Worm*

## Education & Development

- **Certificate in Full Stack Web Development**
- UCF Coding Bootcamp - Orlando, FL
- Expected Completion July 2022

- **Bachelor of Music - Jazz Studies, Cum Laude**
- University of Central Florida - Orlando, FL
- 2013 to 2017

- **EntreLeadership -** Mentorship and Development Group
- Personal Growth as a Leader and Small Business Owner
- 2020 to Present

## Projects

**Weather App |** github.com/Doctor-Worm/Weather-Dashboard **|** doctor-worm.github.io/Weather-Dashboard/
- Retrieved weather data from the OpenWeather **API** by using **REST**ful HTTP methods implemented with the **jQuery AJAX** library
- Created beautiful **CSS** styling with **Bootstrap** and GoogleFonts
- Used **jQuery** and vanilla **JavaScript** to dynamically create **HTML** to render weather data
- Utilized the third-party **moment.js** to convert the unix time given by the API to standard time

**Day Schedule Web App |** github.com/Doctor-Worm/Super-Disco **|** doctor-worm.github.io/Super-Disco/
- Created smooth **CSS** styling with **Bootstrap**
- Used **jQuery** and vanilla **JavaScript** to dynamically adjust the objects on the page
- Used **moment.js** to display current time on page and provide ability to dynamically adjust page styling depending the current time of day

**Throwback Generator |** github.com/awnasworthy/throwback-generator **|** awnasworthy.github.io/throwback-generator/
- Parsed data from the NY Times, Musicbrainz, & IMDB **API's** using **REST**ful HTTP methods according to the user inputed data
- Used the **jQuery AJAX** library and vanilla **JavaScript** to dynamically create **HTML** to render user requested data
- Used client-side storage to store persistent data

**ReadMe Generator |** github.com/Doctor-Worm/potential-enigma
- Created a command-line application that accepts user input to dynamically generate a completed file
- Used the **inquirer** package within **Node.js** to curate user input for the file
- Used **JavaScript** ES6 to dynamically display the markdown and user data

## Experience

**ASM Studios -** *Music & Art School* • (2018 - Present) • *Owner & Director* • *CEO/CFO*

- Strategize for business growth, marketing, and internal improvement
- Interview, hire, manage and mentor our team of 10 teachers, as well as Assistant Director
- Quickly adapted to the covid pandemic by providing live, virtual/online classes and continued to maintain a profitable student enrollment
- Designed, and maintained our schools' website
- Create, organize and coordinate our school concerts, camps, and other events

**ASM Studios -** *Music & Art School* • (2012 - Present) • *Private Drums & Percussion Teacher*

- Problem solve with students to identify and cultivate their individual learning styles
- Communicate with parents about student progress and expectations week to week
- Collaborate and discuss with other teachers on how to be better and more effective educators

**Lyman High School** • (2013 - Present) • *Drums & Percussion Teacher*

- Lead and direct auditions, rehearsals, classes, and performances for marching drumline and percussion class
- Mentor the student leadership with how to effectively lead, manage, and teach their peers
- Teach jazz band how to creatively adapt to and approach new and/or different situations and styles of music
